**Mammal (Mammalia)**  
 Studies relating to mammals are indexed with the same degree of specificity reported in the original document. For example, the class heading *Mammal* is used when the study concerns mammals as a group; a heading such as *Primate* or *Ruminant* is used when a sub-class of mammals is the subject of the study. Studies of precisely identified species are indexed at the common or scientific name of the species  
**Mammalian cells**  
 Valid heading during volumes 126-130 (1997-June 1999) only  
 See *Animal cell*, mammalian
